

Dr. Rhythm DR-3

*The drum machine that
virtually plays itself.*

With the DR-3 Dr. Rhythm, musicians can create realistic-sounding drum tracks without complicated programming—thanks to onboard Rhythm Progressions with multiple pattern variations. The affordable DR-3 also comes loaded with some of BOSS' best drum and bass sounds, making it a great choice for songwriting and jamming.

*Ideal for practice
and jamming*

*Loaded with
high-quality sounds*

*Onboard Rhythm
Progressions*

*New Total Sound
Control editing*

*100 Preset +
100 User Styles*

BOSS®

It's like having your own drummer.

Superb Drum and Bass Sounds

Take a listen to the DR-3 and you'll be surprised at how amazing this affordable little box can sound. With 120 of BOSS' best drum and percussion sounds, you'll have a wide variety of acoustic and electronic kits perfect for any style. There are also 12 onboard bass sounds, making it easy to add bass to any arrangement. And with 13 velocity-sensitive pads, you can program more dynamic and expressive patterns.

New Rhythm Progressions

If you need pro-quality drums fast, you'll love the DR-3's Rhythm Progressions. Simply choose from 100 Preset Styles and use the eight panel buttons to select a different pattern for each section of your song: Intro, Verse, Fill or Ending with three variations each. The DR-3's Preset Styles cover a diverse range of musical genres, so you can grab a pattern and go. Or create up to 100 User Styles via realtime or step recording.

KNCKL HEAD	LATIN ROCK	JAZZ FIVE	

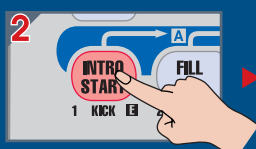

Total Sound Control TSC

BOSS' new TSC (Total Sound Control) makes it easy to change the overall sound of a drum kit. The Sound Shape function offers 3-band compression and 3-band parametric EQ—complete with eight presets like "Loud," "Tight" and "Enhance" and eight User settings. A built-in Ambience effect lets you can add spaciousness and depth with control over parameters like pre-delay, density, early reflections and more. Never before has a drum machine been this powerful and easy to use!

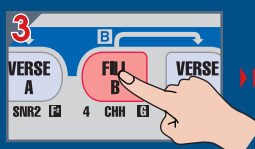

Playing along with Rhythm Progressions is as easy as 1-2-3!

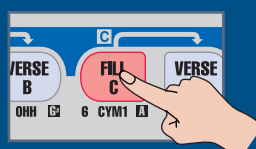

Use the Value dial to select the style of pattern you want.

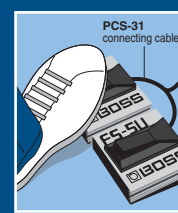

Push the Intro/Start button. After the intro, your pattern begins.

To create a fill-in, simply press FILL B at the appropriate time.

Now you're jamming! To get a different fill, simply press FILL C.

By connecting two optional footswitches, you can control the DR-3's Rhythm Progressions hands-free—great for performance!
